Turnkey Wellness Hotel and Event Venue Business in Rhine-Main Region

A young, fully developed operating company is offered for sale in the Rhine-Main region. The company operates an exclusive wellness hotel with an event venue and a separately leased commercial kitchen.

The concept combines private wellness stays, overnight accommodation and time-based bookings with the rental of event spaces for private celebrations, corporate events, workshops and other tailored formats. The business model is complemented by bookable additional services and recurring rental income from the commercial kitchen.

Over the past 14 months, the business has been extensively developed, equipped and prepared for operation. Significant investments have already been made in interior furnishings, wellness facilities, technical infrastructure, online presence, brand development and operational processes. The company can therefore be taken over and continued without the need for a lengthy development or renovation phase.

The company is still in its growth and establishment phase. For an experienced operator, there is considerable development potential, particularly in occupancy management, pricing strategy, event sales, corporate client acquisition, partnerships and standardized add-on packages.

The intended transaction is the full acquisition of the company's shares by way of a share deal. As the existing company remains the contracting party, the current lease agreements and other contractual relationships can generally continue in place. A structured handover and an agreed transition period can be provided.
