Offer Corporate sales, firm sales, sales

Educational institution

A certified education and coaching provider specializing in career guidance, professional development, and sustainable labor market integration. Through individualized, multilingual support and practical coaching, people are guided in their personal and professional development and systematically prepared for entering employment or vocational training.

A key distinguishing feature is the consistent use of innovative digital solutions. These include process automation, audiovisual job applications, and proprietary AI applications that make guidance, qualification, and job placement more efficient and tailored to individual needs. This approach is complemented by personal support and a broad network of companies, educational institutions, public authorities, and advisory organizations. In this way, barriers to employment are systematically reduced, individual potential is highlighted, and sustainable career opportunities are created.
