Manufacture of cold-rolled profiles

A production plant for the production of cold-rolled profiles and accessories for the construction industry is offered.

Drywall profiles CW 50-100 and UW 50- UW100 for non-supporting GK panel walls, UD 28 and CD 60 for suspended GK ceiling constructions including accessories

Plaster profiles for indoor and outdoor use (quick plaster 6+10mm plaster thickness, corner angle for GK plates made of aluminium and galvanized steel sheet)

The plant has been producing since 2000 with ever-increasing sales figures. Full order books, very good customer structure and the huge market ensure a high return.

Location: Eastern Europe / German company

Participation is also possible.
