Look for Corporate participation, firm participation

Nursing advice medicine

I am looking for an investor/business partner

I have been working in the care for 11 years and notice again and again that the advice in an unforeseen if necessary one is sent from one station to another but reach the fewest do something .in schleswig holstein there is a private consulting office which has been successful for over three years to accomplish the construction I need a low initial capital. contacts are made and the concept also exists at times and the demand is very high at the moment
