Offer Corporate participation, firm participation

Innovative glass coating (European patent)

Balmar is our company name and at the same time our Europe-wide patented product. It consists of an innovative coating on glass, with which any shade, any pictorial representation, logos, lettering, etc. can be applied directly to glass.

Balmar has unique unique selling points in the criteria of "price structure" and "product quality".

In order to be able to cope with the upcoming orders, we want to strengthen our equity capital.

We offer a holding in the form of profit participation certificates (without any price risk) with 8% fixed interest rate and above with a participation in the over-profit a long-term investment.

For further information, please contact Dr. Peter, Scheidt and Mr. Franke.
