Look for Corporate financing, investor

Adventure and Amusement Park on the Mediterranean

For a completely new Concept of an adventure and Amusement Park I am looking for silent or active Partners or other Investors. The Viability of the Business Idea is based on intensive Market observation-and Analysis.

The Concept is the Optimization of various existing Institutions of a similar Nature.

However, due to a completely new Approach, it has a global unique selling Point.

Earnings forecasts are verifiable, traceable and realistic.

What'S Special about this is that this Park requires far less Capital compared to existing Facilities of a similar Nature. Nevertheless, high Visitor Numbers are to be expected due to the Attractiveness. Later Worldwide marketing is also possible.

A detailed Business Plan is in place. The Capital Requirement is approximately €4 Million, some Of which could possibly be financed.
