Offer Corporate co-operation, firm cooperation

## **Web design, cms, internet solutions**

We are looking for cooperation partners for expansion in other regions. We work very closely with a manufacturer of an industry-specific and modular content management system (CMS), which offers very special USPs in various industries.

We would like to give you (also start-ups) the opportunity to specialize in solutions with this product and to benefit from the advantages.

Are you interested in new challenges or are you missing a suitable product in your portfolio?

Please contact us.

Yours sincerely  
Nellessen

[Co-operation](#)
