Look for Corporate participation, firm participation

Mineral water, beverage production

We are looking for participation in mineral water production. (Fruit juices and beer can also be marketed.)

There is a large water reservoir in the best drinking water quality (certified and approved by the authorities).

The site and buildings for the fabrication are available.

We are looking for cooperation with bottling companies that want to expand their capacities in the Arab countries. Highly attractive in terms of tax. Market open for water up! Offer additional lyric is an opportunity to make water without carbonic acid durable by new technology from quantum physics. In the Arab countries of great importance, because carbonic acid is unpopular.
