Fine mechanical workshop

Small, fine and very well equipped mechanical workshop is looking for a competent and trusting successor. The mechanical workshop consists of turning, punching and fixture construction. The company has been in operation for 35 years. Our work covers a wide range of precision turning, milling parts, punched parts and repairs. The building is centrally located in 's Ostend. For this purpose, we would like to hand over our customer base as well as the adjacent residential building. We sell because of the family situation.
