

The big business marketplace

Business for sale more than 15 years

ID 6873

Offer Corporate co-operation, firm cooperation

Water purification

We offer cooperation or participation to people and companies who are in contact with people and groups interested in electronically controlled water treatment systems.

Areas of application are offices, practices, daycare centres, schools, old people's housing units, residential units and horticulture.

The >systems can be configured to meet different needs.

The systems are very popular.
