We import and distribute innovative (patented) Accessories for mobile Phones and Devices in Germany, Europe and UAE. In , Sales amounted to around €150 Thousand, while The Sales Expectation for the Following Years is a Multiple.

For this Growth Market with very good Potential, I am looking for a partner who will contribute either a: Capital to the company in order to meet the Challenges and opportunities offered by our Products and/or b: Through our own sales and marketing Contacts, our Bringing Products forward together with us.
