Look for Corporate financing, investor **Health centre**

Dear Investors,

we are a young company in the field of Medical Wellness & Prevention and have made it our mission to become a major service provider throughout Europe. We operate a small wellness & prevention center and have the distribution of various med. Certs. devices are taken over. We founded our company at the end of November and are represented in a medical center. From here, we also operate our sales. In order to further build up our promising company, we are looking for a private investor or a private investor. Approximately €20,000 is needed on a credit basis. We thank you for your interest in investing in a promising company.
