Ladies and Gentlemen,

This is about a smart Business idea in the medical Services Sector. This will require about 3000 Euros. Unfortunately, since we are unemployed and Converted, we do not yet get Credit for the Purchase of the Device in order to Be able to carry out our Idea. Since we are sure that we have encountered a Gap in the Market and want to work, we are looking for a Private Investor who could contribute to the Creation of 2-3 Jobs.
