

The big business marketplace

Business for sale more than 15 years

ID 7421

Offer Corporate financing, investor

Manufacturing

We are looking for opportunities to invest, not 100% to take over existing or new companies.

We are looking for companies or start-ups that have promising and growing business models, while we are completely industry and location-independent.

Shareholding is usually carried out by participating in the share capital and a position on the Supervisory Board or the Management Board.
