Look for Corporate financing, investor

## **Taxi Company**

I'm searching an Investor to purchase one or more taxi licenses. A license costs around 30,000 to 40,000 "VB" Euros in used but good taxi cars(Mercedes Benz E-Class) can be happy even more vehicles are financed. The repayment of the investment will be set at 72 months. In these 6 years the investor can profit more than 8000 Euro per vehicle financed. to make its investment. If interested, I ask to be contacted by you. I will then send you complete documentation on this subject soon.

With a fund a number of taxis, I could also imagine a silent partnership. These would then need more capital.

This is a legitimate request, so

Please only serious offers.
