Data processing system for reverse auctions

For sale: A data processing system developed in-house for online sms Reverse Auctions. The sneethest idder wins at such auctions.

This is a unique and very professional system wherey auctions can e started in three ways, and all necessary modules are included as well as administration tools, winning tools, Sms handling tools, Sms gateway tools, employee tools, illing tools, etc.

This system is in use in the Netherlands and Germany and there are very good profits.

Sale due to time allocation. ids are welcome, demonstration possile.

Sorry for any spelling mistakes, I'm Dutch.
