Look for Corporate financing, investor **Broadband, Bundled radio, Isp**

We need project capital amounting to 8,500 euros for broadband supply at the municipal level. This supply technology is based on bundle radio technology and can be implemented on a large scale dsl-connections. A project description is available for the project; The necessary number of customers available. The capital is only used on a project-by-project basis and is replaced in full extent plus interest after 24 months.

We would be happy to send them a detailed project description including all necessary documents.

Capital
