Offer Corporate follow-up, firm follow-up, follow-up

## **Metal construction, steel and stair construction**

Well-known and established metal and stair construction company is looking for age-related succession. Various variants from participation to complete sale possible. The company's headquarters are located in zip code 03 with very good transport links close to highway. The workshop and company building as well as land (6500 sqm) are property. Extensively equipped machinery.

A special location advantage is a hot-dip galvanizing plant located in the same industrial area, which allows a high degree of delivery flexibility for galvanized constructions. The company has been on the market for almost 30 years. The core business is the production and assembly of steel stairs, railings, stainless steel components, shaft scaffolding and kits for elevator construction, steel and special constructions for construction and industry. Furthermore, corrosion protection services are carried out with sandblasting work in our own cabin system.

Succession planning is our top priority for our family and our company.
