Modul-based mobile Event Location

Fixed Locations in The Event area as well as for Discos and Experience Gastronomy have often slipped out after a short Time, or need to be rebuilt or Similar in order to attract fresh Audiences again.

We offer exactly these Locations in Modular Form, which can be easily implemented without much Effort, and so are top current again in the next Region. This means that several so-called new Openings can be taken with you with a device.

The only thing that is needed is the Place where the Modules are set up, Electricity and Water Supply.

The Location can be set up in any size you want. Stable, Burglary safe and Multi-storey.

Unique for any Type of Event/Event from 2 Months of Service.

We now want to build a first Mobile Location as a Showcase and operate it accordingly. After that, the Modular Buildings are to be sold to Operators across Europe.
