## Look for Corporate financing, investor **Carrier**

Seeking Capital for the Creation of a small Transport Company. First Of all, the plan is to Buy a TRUCK and Hire another Driver next to me. Transport is to be carried out largely in The fruit Vegetable Business. Many Years of Experience and the resulting Contacts with Clients are available.

If you Are interested in a Stake and a larger Company, the Purchase of several Trucks is also possible, and corresponding Capital must of course be available.

I am happy to adapt to other Ideas and cooperate.

No Use of Equity, no Upfront costs and please only serious Inquiries.
