Management consulting and recruitment

Active partner or investor wanted for the establishment of a recruitment agency in the Ruhrgebiet.

Thanks to about 4 years of experience in recruitment and 12 years of experience in hiring employees, customer contacts are sufficient.

A network is to be established, which can also cooperate with larger temporary employment agencies (contacts available) nationwide or nationwide on the basis of cooperation partners.

A capital of approx. 7 to 10 T€ should be available. concept and planning of the project. Also interesting for smaller temporary employment agencies (from about 3 fillials) who wanted to participate in such a network.
