## **Pre-school Education**

A Concept is offered in which Children in the last Kindergarten children are specifically prepared for the Start Of school.

To do this, the Children learn one Afternoon a week not only Beginnings of writing, reading and Computing, but in an pedagogically sophisticated concept of Games, Discovering, inventing, Tasting, Designing and Researching his Personality full Exploit.

Not only has the Pisa study shown that many Children are not always up to school Requirements. Kindergartens are often overwhelmed in their Task of preparing Children for School last Year. The Same applies to Parents, who often have neither time nor Patience and Pedagogical Skills, but a guilty Conscience.

With the pre-school Education Provision, we are entering a huge Market of private Education. A complete Concept is offered, which can be operated nationwide, regionally or even only in a certain City.
