Metal processing, production, mechanical engineering

Company from the metal industry wanted

Two technicians and an industrial master with management experience want to become self-employed by taking over a company. We are looking for a company from the fields of production and/or service and the metalworking and/or mechanical engineering sectors. The company's location should be within a 50 km radius of . Priority is given to a takeover in the context of an age succession and, if possible, on a pension basis.

[Succession](#)

Region 42, Germany

Entry in own name
