ID 9299

Look for Corporate financing, investor

## **Taxi or car rental companies**

Young, up-and-coming car rental company (2 vehicles, 1 permanent employee, several assistants) is looking for serious investor or breastfeeding partner.

The company was founded in August and sales are steadily increasing. This growth is now to be further strengthened in order to generate the expected profits.

The investment (approximately 10,000 to 15,000 euros is needed) is primarily intended to promote the areas of advertising and new customer acquisition.

It would also be conceivable that the investor would participate in the longer term as a still shareholder with a profit distribution of 30%. with full transparency of all business activities and access to all documents.

More information about the modalities, about the company and my person on request.

### Capital

Region 31, Germany
