Look for Corporate financing, investor **Organic Bistro Cafe, vegetarian**

In this Way, I am looking for an Investor for my Project. I would like to open a Bistro in the Old town of , which offers purely organic Products and is designed vegetarian vegan. It represents an absolute Gap in The market here in . Many other major Cities already have Bistros or Restaurants. Due to the current organic boom, you are fully on trend with such a Bistro. Furthermore, I Would like to offer a very special Business Idea there, which does not yet exist. But only more about this when a Getting To know And previous Exchange has taken place. I need a Capital Sum of about 30,000 Euros. Either as a loan or as a silent Part-owner. If you have found the first Interest in this Project, you can contact me.
