Offer Corporate co-operation, firm cooperation

## **Indoor Play Park**

After many years of Successful operation of a Family Entertainment Center, I have further developed the well-known Concept and are looking for a suitable Location in the western Area for Implementation.

Happy also with a cooperation/participation on the part of the Landlord.

The novel Concept is ideal for Building a franchise/store system, as it is significantly more standardizable than previous Indoor Playgrounds.

Compared to previous Indoor Playgrounds, more effective Operating Times, extended Target Groups, higher per capita sales and lower Staffing Requirements can be achieved. Seasonal Dependence is Also significantly reduced.

Equity Is sufficiently there.

However, The Requirements for the Site are somewhat more deficient, as a central Location and, in particular, a good Connection to the public Transport System are imperative. The ideal Size is about 1200 to 1600sq m.

### Co-operation

Region 14, Germany

Entry in own name
