, production and distribution of exceptional, refined swimwear. Bikinis/swimsuits, mainly made of plain fabrics, are to be refined with Swarovski rhinestones motifs, pearls, gold-plated inserts, prints and embroidery. The goal is to produce high-quality and exceptionally beautiful swimwear.

Current production status:

After 2 years of preparation, the first collection is ready and all necessary production and sales partners have been found. The next step is to create sample collections for presentation, trade fair and customer visits, as well as launch of appropriate advertising measures through an advertising agency for the market launch. The collection is expected to be ready for the season, so capital is needed immediately. Appropriate trade fairs etc. will start soon.

The collection is in the high-priced range.

The models are meant to convey a touch of luxury without looking exaggerated or too sexy.
