

The big business marketplace

Business for sale more than 15 years

ID 9892

Look for Corporate participation, firm participation

Software development CMS systems, community systems

Well-established specialist provider of web applications, content management, community management solutions and publishing software with an interesting (publishing) customer base is looking for investor/participation to further develop its innovative XML-based CMS for publishers and companies (unique selling point: fully automated cross-media print-to-web publishing in conjunction with a print editing system)

[Participation](#)

Region 68, Germany

Entry in own name
